

Join us for CMC 2005

As you finalize your activities for next year, be sure to include CMC 2005 in your plans. The 19th annual Credit Management Conference (CMC) is your opportunity to gain the insights and tools you need to build strategic direction while improving daily operations.

All current and prospective CGI-AMS customers responsible for credit and collections, lending, fraud prevention, portfolio management, and risk management should plan to attend.

- Learn about the latest innovations and strategies in credit management
- Network with industry experts and fellow colleagues
- Hear about enhancements in CGI-AMS's suite of credit solutions offerings

Mark your calendar and join us next September for CMC 2005 in the western United States. Registration and hotel costs will be similar to last year's event - under \$1,000 for registration and approximately \$200/night for hotel. Final dates and additional details will be sent to you before the end of the year.

CGI and AMS have combined their expertise to become a world-class leader in delivering end-to-end information technology services and solutions. Under the CGI-AMS banner in the United States, we are now even better positioned to provide enhanced credit management expertise, technology know-how, and market leadership.
